

LEXIS+ SA TOP 10 FEATURES

Lexis+

EXPERIENCE THE LEXIS+ DIFFERENCE

ONE POWERFUL SEARCH

WHAT IT DOES?

You can now search across Research and Practical Guidance from the single search bar on the Lexis+ home screen.

SO WHAT?

Enter a search term once and get access to the widest range of search results, including documents from sources that you may not have considered so that you always get the full picture.

You can receive notifications when new content is included in a publication or when a new document is added to a search term. Choose to receive your alerts online when on the platform or on email and decide how frequently you want to receive the latter option.

Stay updated on and in control of emerging legal developments. You decide what to track and how to track it so that you are always in the loop.

Users can now narrow down search results based on specific filters like judge, court, practice area and topic and timeline.

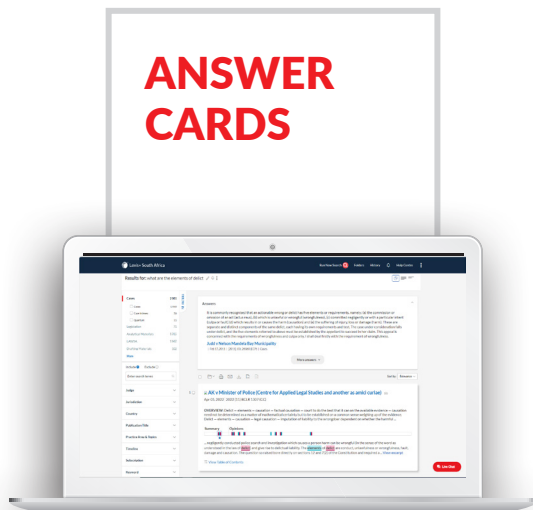

Helps you target relevant documents, track the involvement of specific law firms or attorneys in similar cases or delve deeper into specific legal topics or subtopics.

Our unique visual insights feature scans search terms, colour codes them and allows you to preview document excerpts right from your search results screen.

Use our interactive visualisation bar to quickly spot search term patterns and the densest concentrations to quickly identify the most applicable results and the most relevant parts of a document.

WHAT IT DOES?

Our unique algorithm leverages machine learning technology to recognise your natural language legal question and deliver a pertinent result in a stand-out format at the top of the search results page.

SO WHAT?

You'll find relevant answers easily and can click through to view the referenced document to discover citable references more efficiently.

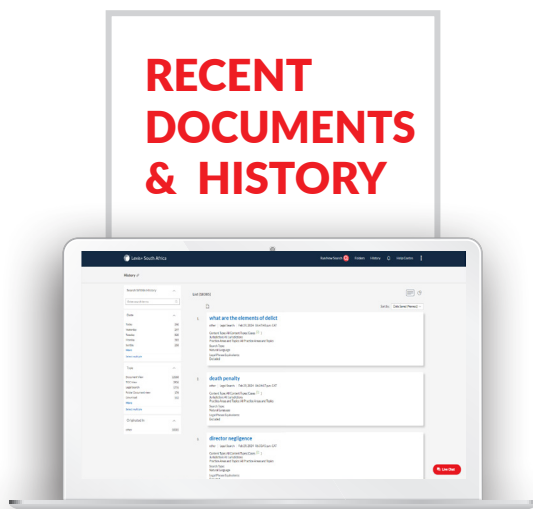

WHAT IT DOES?

Records the steps of your searches and provides a visual guide for the search journey.

SO WHAT?

Allows you to quickly understand the steps you took so you can retrace or repeat your most recent searches, including the most complex ones with ease. Also helps you understand which steps returned the best content to aide your future searches and helps you demonstrate a search process to a junior practitioner.

WHAT IT DOES?

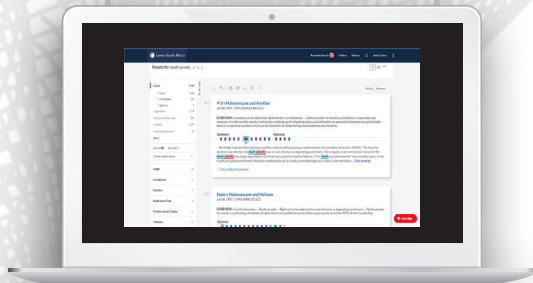

Users can see the most recent searches and documents they have viewed.

SO WHAT?

Easily access your recent searches and content, enabling you to pick up where you left off and perform regular tasks quickly. You can filter to look at a specific date or type of action.

SEARCH WITHIN RESULTS

WHAT IT DOES?

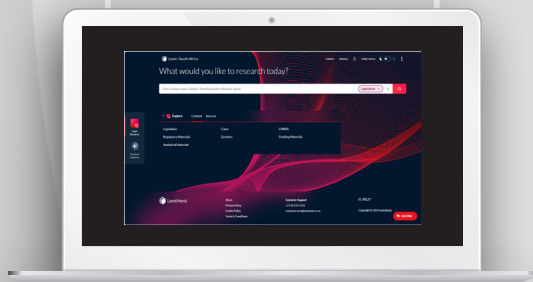

Users can carry out additional searches to include or exclude search terms, repeating it as often as they need to until they get the results they need.

SO WHAT?

Saves time refining searches to get the most relevant results.

MODERN USER INTERFACE

WHAT IT DOES?

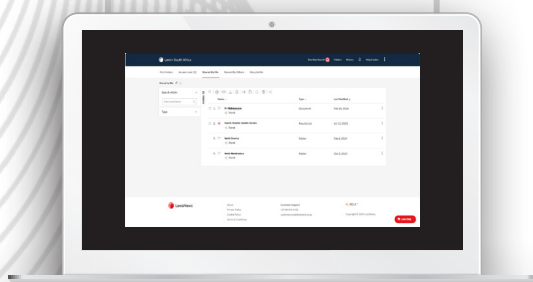

An updated look and feel was our number one priority. Our new platform is centred around our users to provide an intuitive, premium experience with our most advanced search functionality.

SO WHAT?

You can easily search and browse across all your content in a more intuitive and user friendly way, which means better results in less time.

WORK- FOLDERS

WHAT IT DOES?

You can save up to 2,000 documents from our Lexis+ platform, share them with other Lexis+ users in your organisation, add notes, and search across folders.

SO WHAT?

You can add content to a folder from wherever you are in the product, so it's quick and efficient. Seamlessly organise, store and share folders with colleagues in your organisation to make collaboration simple and reduce potential oversights or duplication.
